PROFESSIONAL SUMMARY

Results-oriented Data professional with a background in accounting, financial analysis, and bioinformatics, transitioning into Data Engineering and Data Science. Proficient in Python, SQL, and cloud-adjacent data tools with hands-on experience building data pipelines, dashboards, and predictive models. Holds dual degrees in Computer Science and Biochemistry, combining analytical rigour with strong programming skills. Seeking to leverage a unique interdisciplinary background to design scalable data infrastructure and deliver actionable insights.

TECHNICAL SKILLS

Programming Languages	Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly), R, SQL, JavaScript, HTML, CSS
Data Engineering	ETL/ELT pipeline design, data wrangling, data modeling, workflow automation
Databases	PostgreSQL, MySQL, MongoDB, SQLite
Data Visualization	Power BI, Tableau, Excel, Matplotlib, Seaborn, Plotly
Version Control	Git, GitHub
DevOps (Basic)	Docker, CI/CD concepts, Linux shell scripting, environment management (virtual environments, conda), basic cloud awareness (AWS/GCP concepts)
Networking & OS	Linux, CCNA (Cisco), networking fundamentals, scripting & automation, network security
Productivity Suites	Microsoft Office (Excel, Word, PowerPoint), Google Workspace
Certifications	Applied Data Science – WorldQuant University CCNA – Cisco CPA Part I – KASNEB

PROFESSIONAL EXPERIENCE

Gybil Kenya

Jan 2024 – Aug 2025

Accountant and Data Analyst | Nairobi, Kenya

- Designed and maintained ETL workflows to extract, clean, and transform large financial datasets, improving data accuracy and reducing manual processing time.
- Built interactive dashboards and reports in Power BI and Excel to visualize KPIs, financial trends, and variance analyses for senior leadership.
- Developed predictive models and forecasting tools using Python (Pandas, NumPy) to support budgeting and strategic planning.
- Automated recurring reporting tasks using Python scripts, reducing turnaround time by streamlining data aggregation and reconciliation.
- Maintained general ledgers, prepared monthly and annual financial statements, and ensured compliance with tax and statutory requirements.
- Collaborated cross-functionally with management to assess financial performance against KPIs and identify cost-saving opportunities.

Centre for Biotechnology and Bioinformatics, University of Nairobi

Sep 2022 – Sep 2023

Research Intern | Nairobi, Kenya

- Applied bioinformatics tools including BLAST to analyze DNA and protein sequences, gaining experience in structured data querying and biological dataset processing.
- Conducted and documented laboratory experiments (PCR, gel electrophoresis, ELISA, Western Blot), developing strong data collection and analytical documentation skills.
- Managed chemical inventory and laboratory data records, applying data organization best practices in a scientific environment.

EDUCATION

Jomo Kenyatta University of Agriculture and Technology (JKUAT) <i>Bachelor of Science in Computer Science</i>	2023 – Present
University of Nairobi (UoN) <i>Bachelor of Science in Biochemistry</i>	2018 – 2022
Lenana School <i>Kenya Certificate of Secondary Education (KCSE)</i>	2013 – 2016

CORE COMPETENCIES

Analytical thinking | Problem-solving | Communication | Collaboration | Adaptability | Time management |
Attention to detail
